

- ECHOMAX by SAVIX

- Comprehensive and flexible solution for electrical grid problems which affect to raise electrical bills.
- Provides the advanced control and proven reliability that your facility needs to solve power quality issues.
- Monitors the load current and quickly response to Compensate power system distortion.

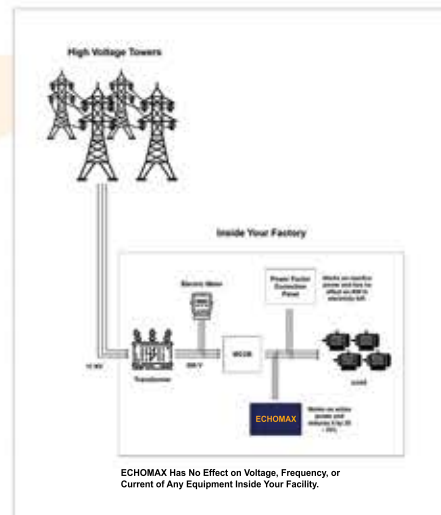

- ECHOMAX by SAVIX

Operates at one of the highest efficiencies for any power saving mechanism, ensuring that losses are minimized.

- ECHOMAX by SAVIX

a critical addition to any plant or facility that require IEEE-519 compliance.

Our Vendors

Schneider
Electric

OMRON

Advantage:

- Minimize Overheating of electrical equipments
- Increase efficiency
- Eliminate Noisance tripping
- Protect equipment from failure
- Decrease interference with communication systems

Where you can apply

Factories

Hotels

Hospitals

Schools

Bussiness Building

Shopping Malls
